The Restorative Effect Shower Head

The Restorative Shower Head uses unique media to eliminate contaminants like chlorine while structuring and ionizing water to mimic equatorial rainwater or waterfalls in softness and energy. Create natural living waters, bringing restored consciousness to your water. (cont. page 3)

Holograms

What if you could have more energy, lose weight, get relief from pain, have a better night's sleep, protect yourself against EMF, detoxify-quit smoking, boost your immune system, increase muscle mass and testosterone, enhance your hormones and youthful appearance? Now you can! Holographic discs communicate through your body's meridians for a natural harmonic, healthy, and balanced body. (cont. page 2)

Scalar Wave Pendant

Scalar-Pendant promotes positive flow of energy and helps to maintain energy balance. It reduces inflammation, cell clumping, and enhances circulation. Has the ability to destroy viruses and bacteria and enhances the immune system. Wearing the pendant increases energy and strengthens the body's biofield. (cont. page 2)

Drink and Bathe in Restorative Waters

Restorative water for the eco-purist... made simple for everyone

Through a decade of collaboration with certified labs and facilities globally, re-vitalized water can finally be generated anywhere tap water exists.

A collaboration of simple earthen minerals, a little human R&D to fabricate the optimal gadget for daily human utilization, and presto! Our devices de-chlorinate, re-structure, ionize, and re-vitalize water. Bio-ceramic technology is a major part of the process to restore water to its natural molecular structure. Using this technology, the water that results is the first in the world to receive the NSF-Ansi 42 certification.

Many of us appreciate when we can have fresh water, see the bounty of rich soil, breathe air that is not tainted by industrialization and eat food that pleases our palate and sustains a healthy life. These are the basics of a good life; and yet all of them are being threatened. Everyone on the planet has been affected by the water quality whether they know it or not, by contaminants in our environment, and by electromagnetic radiation. With the current state of our planet, most of us are aware that no place is left untouched by pollution. Yet most of us are oblivious to the pollution inside our bodies and the insidious damaging effects they have. It has now become urgent to put our attention on honoring the wisdom of nature and its inherent ability to restore balance.

One of those contaminants we *can* reduce from our environment is chlorine....

The U.S. Council of Environmental Quality states **"Cancer risk among people drinking chlorinated water is 93% higher than among those whose water does not contain chlorine."** If you bathe in city water everyday, you absorb about 600% more chlorine than if you were drinking it. In the shower, the heat and the steam bring the gas directly in contact with mucus membranes and skin where substances are readily absorbed and inhaled.

Utilizing the science of Bio-mimicry, we have emulated the way nature makes pure and healthy spring water. Our goal is to provide options for healthy drinking water as well as a shower stream that is pure, soft and mineral rich, making you feel healthy and refreshed without chlorine or other toxic chemicals. We succeeded. *The Water Wand*, *The Water Pouch*, and *The Restorative Effect Shower Head* each provide a process for restoring water that actually mimics natural water found in pure mountain springs.

Our special bio-ceramic beads are made with natural earth elements that transform the existing damaged molecular structure of water to its optimal pure state. Certified safe and effective, the processes are simple for use in drinking water as well as in the shower. Restorative water is naturally softened with the same minerals found in nature.

Scalar-Wave Energy Pendant

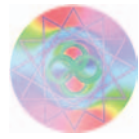

When an electric current flows together from opposite directions, the opposing electromagnetic fields cancel each other and create a scalar wave that appears like a mobius strip

Scalar Energy has always existed since the beginning of time. Harnessing this energy by wearing this attractive pendant creates electromagnetic fields in your body that cancel out negative energies and maintain vitality and balance.

The Scalar Wave Pendant:

- Reduces inflammation
- Reduces cell clumping
- Enhances circulation
- Enhances immune and endocrine systems
- Destroys viruses and bacteria
- Enhances cellular detoxification
- Enhances cellular permeability
- Increases energy
- Helps to protect DNA from damage
- Helps to retard the aging process
- Helps to fight cancer cells
- Increases focus and concentration

Preliminary tests have effectively demonstrated positive changes in the meridian channels by the use of the holographic discs.

Never before has the ubiquitous nature of science's ever penetrating look into nature been so baffled by quantifying holometric data and its instantaneous affects on the human body. Not only is this phenomenon stranger than we think, it is stranger than we can think! And, yet, holograms and laser imprinted data are part and parcel of our everyday lives, no one has ever thought to augment the biofield with holographic data—until now.

Eliminate Deadly Chlorine and Other Toxins in Your Shower Water

In the shower, the heat and the steam bring toxic vapors directly in contact with mucus membranes and skin where substances are readily absorbed and inhaled. Hot showers (109°F) can free up a large percentage of the toxic chemicals into the air. The bottom line is that Chlorine, TCE, chloroform and benzene are just a few of the toxins that are easily absorbed through your lungs and into the bloodstream. The exposure to these chemicals was found to cause asthma.

The Restorative Shower Head uses unique media to eliminate contaminants like chlorine while structuring and ionizing water to mimic equatorial rainwater or waterfalls in softness and energy. The Restorative Shower Head is a 6" innovation in showering with multiple settings – a rain showerhead for a spa-like waterfall experience, plus four unique spray settings, and clear handle to see media usage. Bioceramic cartridge lasts 9+ months or 40,000 gallons.

Features:

- Spa-like waterfall that gently washes and rejuvenates
- Tri-stream power wash setting with 3 high pressure streams for maximum washing power and skin stimulation
- Fog atomizer setting provides a high pressure living-water fog to clean, stimulate, and rejuvenate your entire body
- Soaker setting provides multi-faceted bubbly low-pressure stream that covers and caresses the skin for optimum hydration

Manufactured to international standards for consistent connectivity
Transparent handle reveals when it is time to replace the cartridge.

We asked Nature... What is Restorative about Water?

Water that is returned to its natural condition that is safe enough for a baby's tender skin – but strong enough to clean and treat mature skin...

The bioceramic filtration in The Restorative Shower Head:

- neutralizes residual toxic chlorine gas in municipal water
- prevents chemicals and chlorine from penetrating the skin
- prevents various skin allergies, especially atopic dermatitis
- stops itchy skin and scalp
- helps prevent ticks and lice on your pets
- helps to hydrate and moisturize dry skin

The Restorative Shower Head is special because it uses patented processes learned from the natural world to create an invigorating, therapeutic, and luxurious shower experience.

Water in the Restorative Shower Head flows through this process:

Stage 1 - Dechlorination - ceramics absorb and destroy chlorine while releasing calcium ions making water ready for Stage 2

Stage 2 - Water Restoration – water is rejuvenated by a 4-flow action with mineral infusion that restores vital life force*

Stage 3 - Far Infrared Heat Infusion – this mimics the power of the sun. Bioceramic beads capture the heat in your water and turn it into a far infrared sauna experience that provides a penetrating deep heat you can feel inside.

Stage 4 - Negative Ion Generation – the free-flowing power of rain or waterfalls generate bio-electricity, a naturally occurring restorative energy. Bioceramics mimic that action infusing high potency negative ions into the water stream uplifting your spirits and treating your skin while providing the softness of a waterfall bath.

*Patented Bioceramics contain ORMUS minerals which are the minerals that nature uses to create natural living waters, bringing restored consciousness to your water.

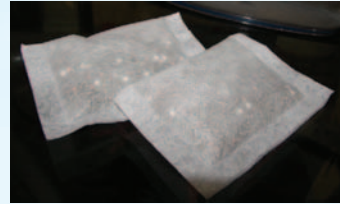

Offer for limited time only

Free WaterPouch with \$50 purchase

We are making this special offer so you can try a revolutionary new product for personal health and hydration.

waterpouches™ are the most affordable and greenest way to get the highest quality antioxidant alkaline ionized mineral water. The **waterpouch™** produces one of nature's perfect waters. It works like a tea bag to restore your drinking water to healthy, mountain spring condition. Use for pets and plants, too. Each pouch treats 1 liter to 1 gallon and creates up to 150-200 liters of optimum water and lasts for about 4 months.
